Congratulations Rosedell Students on High Science Scores!!! Our Rosedell 5th grade students received very high scores on the 5th grade California Standards Test in Science for the year 2014 according to State scores released last Friday. Rosedell's 5th graders achieved an amazing score of **92% for students scoring Advanced and Proficient**, which was the highest percentage of all 15 schools across the District! This was an increase of 13% from the previous year of 79% scoring Advanced or Proficient. The 5th grade science test covers both 4th and 5th grade science standards. We are very proud of our students. The hard work of our students, teachers, parents and staff working together is evident by the continued academic success of our Rosedell children. Individual test results have been mailed home this week along with their 5th grade PE scores.
