School Attendance: National Research shows that student attendance is a strong predictor of academic performance in grades K-12. Students with numerous absences have a high rate of dropping out of school. Regular student attendance also is an indication of individual students' physical and mental well being. Students with frequent absences have a difficult time keeping up and adjusting to daily routines. Please continue to make every effort to ensure your child attends school each day and is on time. Your support with attendance will help ensure your child has a successful school year.
